

**Home Use Devices – Preset Modes for user Friendliness and Ease of Operation**

**THERAPEUTIC MASSAGERS – (Not FDA cleared for treatment of pain) (How they differ from previous model is in **Bold**)**

Avazzia Blue	\$495	Relax – Stim	Therapeutic Massage	Most economical, 2-mode device. Great Value!
Med-Best	\$895	Relax-Stim-Deep Stim- <b>Cycle</b>	Aging, Chronic Conditions	Cash-pay. Easy-to-use Cycle mode cycles through each mode at 2-min intervals.
Med-Sport	\$895	Relax-Massage-Stim- <b>Acute</b>	Physically Active, Minor Muscle Aches and Strains	Cash-pay. Acute for acute injuries and conditions.

**Best Technology – Biofeedback Electro-Stimulate – (FDA Cleared for treatment of Pain, Rx required)**

Best-Pro 1	\$995	Relax( <b>Assess</b> )-Stim-Deep Stim-Acute	Pain (Chronic, Post-Operative, Stress-Induced, etc) chronic, intractable pain, postsurgical and post-traumatic pain.	Priced for Medicare (MC) coverage. NOTE that MC will only cover if sold through a MC approved DME (Durable Medical Equipment) Reseller. Typical max coverage is only \$350 less 20% copay or ~\$280.
		Doctors who wish to prescribe this impressive pain management technology to patients who would likely not be able to afford it without MC should be considered. However, MC is not business sustaining reimbursement level. Purpose is to make technology available to those who need it who cannot afford it. Rx (and sale) is passed to a MC DME approved in patient’s region of country.		
Best-RSI	\$1331.91	Relax(Assess)-Deep Stim- <b>RSI</b> -Acute	<b>RSI</b> - Strongest mode developed for Pain associated with Chronic conditions such as Repetitive Strain Injuries including Carpal Tunnel	More advanced model. Private Insurance allowable amounts vary from not covered to \$1750 depending on individual policy. MC

			Syndrome	will only reimburse MC allowable amount: usually \$350 less 20% copay or ~\$280.
Great for people who can afford or can file their own insurance to defray some of the cost. <b>Hint!</b> Want to save money, get the Best-Pro 1. Want the strongest device for most effective treatment, get the Best-RSI.				

**Professional Use Device – allows healthcare practitioner to set output mode parameters**

Pro-Sport™	\$3000	<ul style="list-style-type: none"> <li>- Biofeedback Technology</li> <li>- All modes above, including new advanced modes including <ul style="list-style-type: none"> <li>o VASO</li> <li>o Acute Trauma</li> </ul> </li> <li>- Digital display for taking data and measuring treatment progress</li> <li>- Allows user selection of output mode variables <ul style="list-style-type: none"> <li>o Frequency</li> <li>o Burst Pulses</li> <li>o Burst Intensity</li> <li>o Modulation</li> <li>o Damping</li> </ul> </li> </ul>	<b>Clinical Use</b> <ul style="list-style-type: none"> <li>- Take Data</li> <li>- Customize Treatments</li> <li>- Measure Progress</li> </ul>	Great for use in the clinic for diagnostic data, specialized treatments, most flexibility.
